990		<i>PDB restored but reserves</i>						
990	9900	Reserves under Titles 1 and 2		pm	pm		pm	This reserve must be eliminated by means of a transfer before the end of the financial year. When a negative reserve is included at the time of the budget's approval or in the course of the year, it reflects the budgetary authority's determination that any immediate increase in certain areas of expenditure must be offset by "savings" in other areas during the year. The entry in the budget shows a negative amount, to counterbalance the increase in certain allocations. The use of a negative reserve is equivalent to an ex ante redeployment of appropriations (i.e. before any surplus appropriations have been identified and without any change in the total appropriations available). Recourse to a negative reserve frequently helps to resolve conflicts between the various parties in the budget debate.
