

### Annex 3: Amendments to the Annex II of the Commission Implementing Decision on the European register of authorised types of railway vehicles (2011/665/EU)

1. The ANNEX II 'DATA TO BE REGISTERED AND FORMAT' is replaced by the following:

'...'

#### DATA TO BE REGISTERED AND FORMAT

For each authorised type of vehicle, ERATV shall include the following data:

- identification of the type,
- manufacturer,
- conformity with the TSIs,
- authorisations, including general information about these authorisations, their status, list of parameters for which conformity with national rules has been checked,
- technical characteristics.

The data to be registered in ERATV for each type of vehicle and their format shall be as indicated below. The data to be registered depend on the category of the vehicle as indicated below.

The values indicated for the parameters related to the technical characteristics shall be those recorded in the file accompanying the application

In the cases where possible values for a parameter are limited to a predefined list, these lists shall be maintained and updated by the Agency.

For the types of vehicle that are not in conformity with all the relevant TSIs in force, the national safety authority that has granted the type authorisation may limit the information to be provided on the technical characteristics indicated in Section 4 below to the parameters that have been checked according to the applicable rules.

## Notes:

1. Where a parameter is defined in the applicable TSI, the value indicated for the parameter shall be the one assessed in the verification procedure.
2. Predefined lists shall be maintained and kept updated by the Agency in accordance with the TSIs in force, including the TSIs that may be applied during a transitional period.
3. For parameters indicated as 'open point' no data shall be introduced until the 'open point' is closed in the relevant TSI.
4. For parameters indicated as 'optional', indication of data shall be subject to the decision of the applicant for the type authorisation.
5. Fields 0.1-0.4 shall be filled in by the Agency.
